## MDUP Assessment and grading overview

All students within the MD Undergraduate Program are graded on a pass/fail basis. All assessments are designed to measure the achievement of specific objectives related to each course in fulfillment and overall successful completion of the program. Students must pass each assessment modality (see below) to pass the course.

Failure of an assessment modality will result in a detailed review of performance by the Regional Student Promotions Subcommittee (RSPS). The student will be offered a supplemental exam or assignment (if available) by the RSPS.

The following **assessment modalities** are used in the MD Undergraduate Program:

- **Written Exams**
  - **Progress Tests:** Students are required to complete all scheduled multiple choice-based Progress Tests. This exam is mapped to graduation level competencies. The results of Progress Tests allow students to track their learning trajectory and identify areas for improvement and emphasis. It is an expectation that students will approach the Progress Tests with professionalism and integrity and make a concerted attempt to answer all questions presented to them to the best of their ability. Marks from the progress test are not used in promotion decisions. However, to ensure that students are well supported, the marks will be reviewed by the site Faculty. Students who score 2 Standard Deviation below their class mean will be contacted by site Faculty to offer optional academic support.
  - **Course-based Multiple Choice Questions (MCQs):** Students are required to take scheduled summative written exams during the course- i.e., MEDD 448. Exams consist of MCQs to assess their application of knowledge. Students must achieve a cumulative score of  $\geq 60\%$  in this modality to pass. The questions in these exams are mapped to Academic Session Objectives and Clinical Learning Objectives.
  - **Practice Quizzes:** Students are provided *optional* MCQ quizzes designed to help test their applied knowledge prior to the course-based MCQ. It is recommended that students complete these independently. **Individual results of the quizzes will not be used in grading students and will not be available to other faculty members.**

- Portfolio
  - The Portfolio is structured around cycles of self-regulated learning (SRL). Students are organized into small groups and are assigned a faculty coach that meets several times throughout the year. Students repeatedly engage in stages of planning, tracking, sharing, and evaluating (reflecting on) learning. Students are responsible for demonstrating evidence of learning and are supported in developing longitudinal competencies via guidance and formative feedback from a faculty coach. Students are also encouraged to make use of assessment data in a way that is meaningful and useful to the achievement of their goals in an intentional and purposeful way.
  - Students are required to attend their scheduled Portfolio group sessions and submit a variety of portfolio artifacts. Artifacts may include narrative assignments, reflections, critiques, etc. Assignments are considered complete if they meet the minimum standard set in the Portfolio rubric. Assignments must be submitted by the deadline.
- Workplace Based Assessment (WBA)
  - WBAs are linked to Course Learning Outcomes and based on information gathered about the student's observed knowledge, skills, and behaviour in the workplace from all sources.
  - In Year 4, WBA is comprised of Direct Observations, Self-Regulated Learning forms, and End of Elective (EOE) Assessments. EOE Assessments are mandatory, while Direct Observations and Self-Regulated Learning forms are optional to support student learning.
  - Students who achieve the Course Learning Outcomes as outlined in the EOE will pass the WBA modality.
- Objective Structured Clinical Examination (OSCE)
  - Summative: Students are required to take an OSCE using standardized simulated clinical scenarios. Students will perform specific clinical tasks such as history-taking, physical examination, or counselling, reflective of an appropriate level of skill development. A pre-set number of summative OSCE stations are required to be passed; the passing score for each station is  $\geq 60\%$ . There will be no verbal feedback provided after each clinical encounter, but written feedback will be provided on the Individual Score Reports.

## Portfolio Cycle

### **Formative and Summative Assessments:**

**Formative:** Assessment activities that are designed to enable students to use the assessment process and/or outputs to guide their own learning, also known as **Assessment for Learning**.

**Summative:** Assessment activities designed to indicate to the Faculty whether a student has achieved course learning outcomes and/or year-level milestones; also known as **Assessment of Learning**. Results of assessments of learning have an impact on whether a student passes a course, is promoted to the next year in the MD program, or graduates.

## Year 4 Program Calendar

Year 4 is comprised of four distinct courses as follows:

- TIPP
- FLEX
- OSCE
- ELECTIVES

Within each of these courses there are specific assessment components along with requirements needed to be met in order to pass the course.

<i>FLEX Portfolio</i>	2	Week 136	Friday, Nov. 03	FLEX Portfolio 1: FLEX Project Plan (FPP)	Summative
		Week 147	Friday, Feb 16	FLEX Portfolio 2: Summative Portfolio Form (SPF)	Summative

### Note about SPF Deadline

Students are asked to be **available by email during the 10 days after the FLEX PORTFOLIO 2: SPF** deadline – this is the SPF Assessment period. During this Assessment period, the course will contact students whose SPF does not meet expectations, in order to provide guidance on revisions which will bring the SPF to the level needed to pass the course. As per MDUP policy, students who do not pass a course by the end of the Assessment period will be directed to the Regional Student Promotion Subcommittee (RSPS) for a decision as to what supplemental work the student may need to do to achieve a passing grade in the course. RSPS-directed supplemental work will result in an “S” appearing on the student’s transcript.

MEDD 449 – REQUIREMENTS TO PASS ASSESSMENTS			
Assessment Modalities	Formative/ Summative	Requirement to Pass Course	If Requirement Not Met
<i>FLEX Portfolio</i>	Summative	See below <sup>1</sup>	See below

<sup>1</sup>MEDD 449 students will submit two FLEX portfolio assignments. All must be submitted by the deadline. Late submissions will be considered a professional breach, and the student will be contacted by their FLEX Site Director.

#### FLEX Portfolio 1:

- Consists of a FLEX Project Plan (FPP) developed by the student in collaboration with their Activity Supervisor, as well as supporting documents related to project ethics/operational approvals (approvals can be in process at the time of the Portfolio 1 deadline)
- Requirement to pass: Submission of a completed and approved FLEX Project Plan (FPP).

#### FLEX Portfolio 2:

- Consists of one document, the Summative Portfolio Form (SPF), which consists of three components: a Project Report(s), a Literature Review and an Individual Reflection on Learning.
- Requirement to pass: Portfolios will be considered complete if they meet the minimum standard set in the MEDD 449 Summative Portfolio Form (SPF) Assessment.

## MEDD 449 - Information for Supplemental Assignments

All supplemental assignments will be granted by the RSPS.

<b>MEDD 449 – SUPPLEMENTAL ACTIVITY BY ASSESSMENTS</b>		
<b>Assessment Modalities</b>	<b>Supplemental Activity and Requirement to Pass</b>	<b>If Requirement Not Met</b>
<b><i>FLEX Portfolio</i></b>	Supplemental Assignment. Completion of supplemental Portfolio assignment which was failed; must be submitted by the new deadline and meet minimal criteria set in Portfolio rubric.	Student will not graduate. Course failure remains on transcript unchanged. Must repeat MEDD 449.

## Summary of Consequence of Failure of Year 4 courses or Year 4 Programmatic Assessment Components

The following table summarizes the promotion/graduation, consequence of course and/or assessment failure.

Failure of Supplemental component/course/programmatic assessment	Leads to:	Consequence
Failure of TIPP supplemental Exam/ Activity	Failure of TIPP Course	Repeat TIPP when offered next (following year)
Failure of FLEX supplemental assignment	Failure of FLEX Course	Repeat FLEX when offered next (following year)
Failure of TIPP and FLEX and subsequent failure of a supplemental where offered	Failure of Year 4	Repeat of the entire Year (all courses) Student does not graduate
Failure of MEDD 451 supplemental Exam (Programmatic OSCE)	Failure of Year 4	Repeat all or part of the Year Student does not graduate
Incomplete Programmatic Progress Test	Failure of Year 4	Mandatory Prior to Graduation
Failure of MEDD 440	Failure of Year 4	Repeat of the entire Year (all courses) Student does not graduate

## Assessment-Related MDUP Policies:

[Deferral Policy](#): To outline the conditions and procedures by which a student may request a deferred assessment.

[Assessment, Grading, and Standards of Achievement](#): To inform medical students and Faculty about the Assessment, grading, and standards of achievement for all years.

[Advancement, Promotion, Graduation, and Academic Standing](#): To describe the criteria for advancement, promotion, graduation, and academic standing and the consequences for students who do not meet the criteria.

[Exam Conduct](#): To provide students, Faculty, and staff with the expectations of student conduct during formal examinations in the MD Undergraduate Program.

[Bring Your Own Device \(BYOD\)](#): To provide guidelines for students when purchasing devices to support their learning experience.

[Student Examination Accommodations Procedure](#): To provide information on procedures specific to MD Undergraduate Program students requiring Assessment for and implementation of accommodations.

[Attendance Policy & Absence Procedure and Negotiated Absence Guideline](#): To provide students, Faculty, and staff with the expectations for attendance in the MD Undergraduate Program and the procedure to be followed in the event of absences. Reference CACMS Standards 12.4.
